THE AMERICAN CATALOGUE of books in print and for sale July 1, 1876, compiled under the direction of F. LEYPOLDT, and its supplements, 1876–84, 1884–90, 1890–95, and 1895–1900, compiled under the editorial direction of R. R. BOWKER, aims to present all the bibliographical features of the books in the American market, arranged in the first part alphabetically by both *authors* and *titles*, and in the second part alphabetically by *subjects*.

The Catalogue and its supplementary volumes form the only approximately complete guide in existence to the American books of the day, so arranged as to make reference easy from whatever direction the inquiry may come, whether from that of the author, or the title, or the subject. It not only furnishes the desired information about any particular book of which the consulter is in search, but shows what others there are by the same author or on the same subject in which he is interested. To the bookseller, therefore, it is valuable both in filling orders and in stimulating business; to the librarian, in supplying gaps and proportioning his collection; and to all who are practically concerned with books, in furnishing information by a convenient method.

The author-and-title volume of the 1876 volume is out of print. A limited number of the subject volume may be had in half leather binding at $15.

The volumes covering the periods 1876–84 and 1884–90 are also out of print.
